80" x 60" x 14" mattress

WEIGHT
84.8 pounds for easy handling

FIRMNESS
Medium firm for lumbar support

LAYERS
6-layer hybrid construction

MATERIALS
Cotton cover with gel memory foam

CERTIFICATIONS
CertiPUR-US certified with no odor

COILS
Pocketed coil springs for isolation

COLOR
White cotton fabric finish

Who It Is For

- ✓ Adults with back pain needing spinal alignment
- ✓ People sensitive to motion disturbances
- ✓ Those requiring firm support for hips and lower back
- ✓ Individuals prioritizing CertiPUR-US certification

Who It Is Not For

- ✗ Light sleepers seeking softer comfort
- ✗ Users needing adjustable firmness levels
- ✗ Those requiring easy setup without assembly
- ✗ People with severe allergies (no dust mite protection)

Trade Offs to Consider

- Less contouring than memory foam-only models
- Firmness may feel hard for some users
- Requires unpacking and assembly
- Higher cost compared to standard innerspring

How It Compares

- Similar to other hybrid mattresses but with motion isolation
- Firmness level may differ from standard hybrids
- Less plush than all-memory foam options
- More expensive than basic innerspring models

Choose This If...

- ✓ Need support for lower back and hips
- ✓ Prioritize motion isolation for shared sleepers
- ✓ Require CertiPUR-US certified materials
- ✓ Willing to pay for hybrid construction

Skip This If...

- ✗ Prefer softer mattress feel
- ✗ Need easy setup without assembly
- ✗ Have severe allergies (dust mite protection missing)
- ✗ Seek lower price points
