Who It Is For

- ✓ Parents traveling with toddlers
- ✓ Home users needing extra sleep space
- ✓ Daycare centers requiring portable beds
- ✓ Families needing safe overnight solutions

Who It Is Not For

- ✗ Parents with children over 3 years old
- ✗ Users requiring traditional crib designs
- ✗ Those needing permanent installation
- ✗ Spaces without storage for folded bed

Trade Offs to Consider

- Limited durability compared to cribs
- Foam may take 24-48h to expand fully
- Not suitable for infants under 1 year
- Requires space for folded storage

How It Compares

- Better than cribs for travel but less sturdy
- More portable than traditional beds
- Cheaper than hotel crib rentals
- Fewer features than premium cribs

Choose This If...

- ✓ Need a portable sleep solution for travel
- ✓ Prioritize ease of cleaning and safety
- ✓ Require no assembly setup
- ✓ Have limited storage space

Skip This If...

- ✗ Need a traditional crib design
- ✗ Child is older than 3 years
- ✗ Require permanent installation
- ✗ Lack space for folded bed storage
